In collaboration with

BILATERAL ENERGY PARTNERSHIPS

The Women Energize Women Conference is a project of the Federal Ministry for Economic Affairs and Climate Action (BMWK) and is implemented by the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH, the German Renewable Energy Federation (BEE) and the German Solar Association (BSW Solar) within the scope of BMWK's global project Bilateral Energy Partnerships and Dialogues.

About the conference

You picked
the right flyer

- Are you working in the renewable energy sector?
- Is gender equality on your agenda?
- Are you keen to empower women in renewable energies?
- Do you want to dive into the topic of financing strategies of the energy transition?
- Are you interested in meeting inspiring women in the energy field and expanding your network?

On 15 June 2023 the 2nd “Women Energize Women” conference invites experts from the global renewable energy sector to discuss topics related to investment and financing strategies of renewable energies. The exciting program will include discussion rounds, workshops and other formats taking into spotlight the gender sensitive perspective on current challenges in the renewable energies. Seats are limited.

- **connect with other female energy experts**
- **gain more visibility on international fora**
- **shape the global discussion on the energy transition**

Be part of #womenenergize

The “Women Energize Women” conference is closely linked with the “Women Energize Women” campaign **#womenenergize** that empowers, motivates, informs, inspires and connects women working in the energy sector across the world by offering interactive events, inspiring role models as well as important information and general knowledge on the state of gender equality in the energy sector.
